Cuyahoga Community College is upgrading from Blackboard 8 to Blackboard 9.1! Blackboard is the course management system used for courses at the College. Both Blackboard 8 and Blackboard 9.1 will be available throughout the 2011 Summer session.

What does this mean for you if your instructor uses Blackboard in their course?

It means that if you are enrolled in courses during the 2011 Summer session, you may have courses in Blackboard 8 AND Blackboard 9.1. Your instructor will be able to let you know which version they are using. You can also select a link on the second login page, under the Blackboard Tab in my Tri-Cspace to your course.

Bb 9.1 will have a different look and feel than Bb 8. However, Bb 9.1 is user-friendly. One of the coolest features is the ability to personalize your course home page and receive course alerts and notifications.

Please note: Beginning Fall 2011, Blackboard 8 will be phased out and courses using Blackboard will only use version 9.1.
For more information about the upgrade and how to use Blackboard please [CLICK HERE](#) or contact the Office of eLearning & Innovation at (216) 987-4257 or [elearning@tri-c.edu](mailto:elearning@tri-c.edu).
